

Meal Tracker® District Sales Consolidation

Easily gather and consolidate school POS data at the central office!

- Gather and selectively consolidate data from any combination of schools. Group by types of schools (elementary, junior high, middle school, high school, alternative) . . .
- OR choose all sites.
- Date indicators for each school's data.
- Consolidates POS data, yet maintains individual site data for viewing.
- Data for meal participation, revenue, reimbursement, cash, item sales, and edit check.
- Supports both automated POS sites and non-automated ones.
- Ideal for wide-area network (WAN). Also supports the use of modem or diskette transfers.
- For WAN, works on most popular types of networks.
- Direct interface to District Sales Reporting and Real Time Management
- Windows 98, NT, 2000, ME, XP
