

Meal Tracker® Student Management

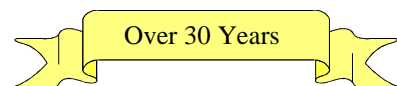

Maintains data for **all** students in the district . . . even those without applications.

Manage student and guardian data with minimal (or no) data entry!

- Maintains *up-to-date* parent/guardian information through direct link to **Student Data Exchange**. On-demand data from this module means that you avoid manual data entry, saving you time and mistakes!
- Ability to manually enter student data if your district is not using an automated student information system (SASI, Eagle, etc.)
- Add, Drop, Transfer, or Edit any student record, for any school site.
- User ID and password are required to log on.
- Define users and the tasks they are authorized to perform.
- All changes are documented by date, time, and user.
- Unlimited number of school location codes.
- Supports year-round schools with the ability to manage tracks for all locations.
- Identify students by: permanent ID number, location, birth date, gender, ethnic code, grade level, class code, track, family ID or SS #.
- Promote students to the next grade level, or re-assign class code.
- User-defined comments field allows you to make notes of special circumstances.
- Students of the same household are automatically linked by telephone, address, or family ID code.
- Connects directly and effortlessly to the Free & Reduced Application Processing Module. **Applications are easier when processed with good data!**
- Also available as a Site Version . . . ideal for single-building districts or individual schools.
- Works on most popular types of networks.
- Windows 95, 98, NT, 2000, ME, XP.
